PROFESSIONAL SUMMARY

Industrial Engineer and Automation Analyst at Cabify (ride-hailing). I ship production-grade AI automation — WhatsApp booking agents, hybrid computer-vision audit pipelines, email-to-API integrations, ML forecasting — built low-code-first (n8n + Claude API + JavaScript/Python) with measurable impact: ~€470K/month brought under automated verification, 71% QR-to-ride conversion, 90%+ self-service resolution. Internal n8n instructor at Cabify Academy. Trilingual (FR/ES/EN), learning German.

PROFESSIONAL EXPERIENCE

Cabify — OEx Automation Analyst

Nov 2025 – Present · Madrid

Promoted twice in 8 months: Customer Ops Trainee → Operational Excellence Analyst → OEx Automation Analyst

- **Fleet audit system (n8n + Claude vision):** 20,000+ vehicle images analysed (vinyl type/condition, plate OCR), 4,000+ vehicles tracked in near real time; brought ~€470K/month of unverified driver incentives under systematic verification — presented at company-wide All Hands.
- **Hybrid ML + LLM engine:** local CNN + OCR trained on 14,000+ labelled fleet images for deterministic checks, confidence-based escalation to LLM only for qualitative cases — ~90% lower AI cost, GDPR privacy-by-design.
- **WhatsApp B2C booking agent (n8n + Claude + Cabify API):** QR scan → conversational booking → driver assignment → billing; live at a major stadium and an international airport; **71% scan-to-ride-request conversion**; anti-fraud controls, Zendesk ticketing, PDF invoicing.
- **Email-to-reservation pipeline for RTVE (national public broadcaster):** parses PDF work orders (dual-template JS parser), geocodes stops, applies 4h/8h business rules and books journeys via API with automatic driver assignment — replacing fully manual corporate dispatch.
- **AI Help Center chatbot (n8n):** 5,200+ interactions in the first month, 90%+ resolved with no human agent; auto-creates Zendesk tickets. B2B WhatsApp corporate-rides flow also in production.
- **KPI forecasting & control:** Prophet · LightGBM · SARIMAX ensemble, +58% accuracy vs. official estimates; COPs Control Board — n8n extracts 35 Tableau processes weekly into a Lovable web app with Slack deviation alerts.
- **Personal AI assistant (Claude Code + MCP):** connected to Slack, Gmail, Calendar, Drive, Tableau and ClickUp — RAG memory, tone-aware auto-drafted replies and a scheduled morning briefing with prioritised to-dos.
- **Cabify Academy — internal n8n instructor:** selected by Talent Development to design and deliver company-wide workshops on workflow automation and API security.
- **Hackathon (Jun 2026):** built Smart Fleet Manager in 1 day — unified driver quality score, real-time fleet map, ElevenLabs AI voice coaching (Lovable, React 19). Live demo: cabify-lauria.lovable.app

Collins Aerospace — Production & Logistics Intern

Jul – Sep 2025 · Getafe, Spain

- Cut inventory costs 35% (ERP audit, MIN/MAX levels, reorder points) and improved production efficiency 15% via Value Stream Mapping; re-contacted months later with a proactive full-time offer.

TECHNICAL SKILLS

Automation & AI: n8n (advanced) · Claude API / Anthropic · MCP · Claude Code · AI agents · Prompt Engineering · RAG · LangChain · WhatsApp Business Cloud API · REST APIs, webhooks & OAuth · Zendesk

ML & Data: PyTorch · TensorFlow · CNNs (image classification & OCR) · Prophet / LightGBM / SARIMAX · SQL · Tableau · Looker Studio

Development & Engineering: JavaScript (automation scripting) · Python · Google Apps Script · Lovable · Excel (advanced) · Process optimisation · Value Stream Mapping · ERP

EDUCATION & CERTIFICATIONS

BSc Industrial Organization Engineering — Universidad Rey Juan Carlos

2021 – Oct 2026

Madrid · GPA 7.71/10 · Honors distinctions · Graduation Oct 2026 · 1st year Software Engineering — UPM (2020–21)

- **Machine Learning Specialization** — Stanford University & DeepLearning.AI (Feb 2026)
- **Business for All** — Harvard Business School Publishing (2024) · **Santander X Explorer** — Entrepreneurship (2024)
- **In progress (2026):** Microsoft Power Platform Fundamentals PL-900 (Coursera) · Anthropic Academy — Claude API & MCP (certificates)

LANGUAGES & ADDITIONAL

French native · **Spanish** native · **English** professional (C1) · **German** beginner — actively learning

National Citizen Education Award 2018 (France) · National-level triathlete (Marlins Triathlon Club)
